  - 21.2 With reference to the report circulated with the agenda, Officers presented a summary of the planning history of the site and the current plans and proposals including the determining issues for the Committee to consider broken down into those that were matters of judgement, main issues of principle/technical guidance and reserved matters. Officers also updated the Committee on consultee responses and correspondence received following publication of the agenda, which were noted in the update report circulated before the meeting. This included details of an infrastructure agreement, consultee responses from the Ramblers Society, Countryside Access Officer, 14 additional representations of which 13 were raising objection to the scheme and there was one in support. A petition of 160 e-mails had also been submitted to the Council raising objection to the proposals.
  - 21.3 The Committee was also advised that since the publication of the papers, officers had negotiated with the County Highway Authority a no left hand turn out of the site and also agreement to retain parking in the layby. There was also an amendment to the recommendation in relation to secondary education that “an enhanced contribution be negotiated” and the Council had also received notice that Surrey Wildlife raised no objection to the scheme.

- 21.5 The Committee considered the report, representations and consultee responses in detail, and focused debate specifically on public safety and the proposed traffic mitigation measures which Members did not feel were enough considering the size of the development and its rural location. There was also discussion about the number of affordable homes proposed on the site being too few, not enough play areas being provided for young people and the proposed infrastructure contributions, in some areas, not being realistic estimates.
- 21.6 Having considered all relevant matters, the Committee considered the revised recommendation, including amendments to conditions outlined in the update sheet and unanimously RESOLVED that a decision on the application be DEFERRED for approximately 8 weeks for officers to discuss with the applicants some of the concerns raised above and for further negotiations with Surrey County Council regarding the contributions and County Highways for more thorough and detailed traffic mitigation measures for the development.
