Subject: Fw: Licensing Act 2003 - Application Farnham Rugby Club

I fail to see the "need" for this licence in terms of the local community. One of the attractions of Badshot Lea is that it is quiet. This licence application appears to suggest that the Rugby Club will kindly allow local residents to have 9 or 10 hours daily without (loud) outdoor events, (loud) music, drinking and, indubitably, lots of vehicles roaring around in the dead of night and the early morning, possibly operated by intoxicated individuals. If it is a rugby club, surely its primary focus should be on the game? There are public houses for drinking and why would there be a need for off sales of alcohol? As far as I am concerned, this is an application on behalf of an "open all hours" social establishment masquerading as a rugby club. As I recall, Badshot Lea residents kindly made few objections when this club wanted to obtain new facilities. This type of action and intended activity is not considerate of local residents. I would object strongly to this licence.

Regards
