CNL18/21 QUESTIONS FROM MEMBERS OF THE PUBLIC (Agenda item 6.)

18.1. The Mayor advised that no questions had been submitted from members of the public.

CNL19/21 QUESTIONS FROM MEMBERS OF THE COUNCIL (Agenda item 7.)

19.1 The following question had been received from Councillor Knowles:

“Lloyd’s Bank PLC have announced the closure of Haslemere Branch by the end of the year. In my memory Haslemere has two Lloyds Branches, two Nat West, a Midland (HSBC), a Barclays and a number of Building Society Branches including Woolwich, Abbey National, National & Provincial and Halifax. With the closure of Lloyds, there will be no bank or building society in the town, with a population in three counties of some 19000. What representations are the administration making to preserve some vital financial facility in Haslemere”

19.2 The Portfolio Holder, Councillor Townsend, gave the following response:

“Many banks have closed across Waverley in recent years due to decreased financial viability, with customers moving online. The problem is now particularly acute in Haslemere with the news that the last bank in the town (Lloyds) is to close in the autumn. Although the borough is currently well served for post offices which are providing more financial services, there remains a particular issue with regard to access to cash through the day and night.

The Economic Development team has been working with Haslemere Town Council (HTC) and Haslemere Chamber to request installation of a cash machine in the town centre. A proposed site owned by HTC in the central car park was circulated to providers together with evidence of significant local footfall. There was unfortunately little interest pre-Covid. However, with the news of the last bank closure, we have asked the cash point providers to urgently reconsider the situation. We have also provided HTC with details for the CEO of Link and Jeremy Hunt, MP has written to him to support the case for a cash point in Haslemere.

We have put Lloyds mobile banking team in touch with Haslemere Town Council to discuss the provision of a mobile banking service, along the lines of the van they offer in Cranleigh.”

19.3 The Leader of the Council asked the following question:

“Several experienced members of this council have suggested in the press that LPP2 has a relationship to our five-year housing land supply, for example more recently in analysing our successful defence of the planning appeal for Land at Lower Weybourne Lane, for which I congratulate our team.

It is my understanding that this relationship is minimal and that LPP2 (although desirable) will not resolve many of the issues the planning system causes for Waverley Borough Council

Could the Head of Planning / PfH for planning outline what (if any) relationship LPP2 has to housing land supply and could they comment upon planning issues facing Waverley Borough Council that are not resolved by LPP2?”

19.4 The Portfolio Holder, Councillor Macleod responded as follows:

“The government’s requirement for a five-year housing land supply means the Council must provide evidence that enough homes in the Borough can realistically be completed within five years to meet the housing needed. Although it is desirable to have housing allocations in LPP2 adopted to provide some certainty for our communities, this does not mean that the homes on allocated sites within a Local Plan can automatically be included within the five-year supply, as such housing can only be included where there is clear evidence that the housing will be completed within five years. For the purposes of demonstrating a five-year housing supply the onus is on the Council to provide the evidence to demonstrate these sites will deliver housing within that period, which is not the case with every proposed allocation in either LPP2 or even in the already adopted Part 1.

It is also important to point out that the Local Plan is not the only plan allocating sites for housing in the Borough. Some of our local communities have decided to carry out their own site allocations for housing in their neighbourhood plans. Although excellent progress has been made within the Borough overall, some expected housing allocations within neighbourhood plans have yet to be made. As it currently stands LPP2 is only proposing to allocate around 200 homes in Witley parish and approximately 300 in Haslemere, which equates to less than 5% of our total housing requirement for the Local Plan period to 2032 . In Haslemere, most of the sites currently proposed for allocation in LPP2 lie within the built-up area or are on brownfield land; development which current strategic policies adopted in Local Plan Part 1 supports. It is not the case that these brownfield sites have to wait until LPP2 is adopted before they can proceed through the planning application process. Progress in housing being delivered on these sites is therefore not reliant on LPP2 being adopted.

Accordingly, whilst we fully recognise the importance of Local Plan Part 2 and are working hard to take it through to submission to the Secretary of State, simply adopting this Plan will not, in itself, alter the Council’s current position of not being

able to demonstrate a five year housing land supply, without which countryside areas outside of the Green Belt will continue to be targeted by the development industry. What is really needed, is for sufficient full or reserved matters planning applications to be granted for housing on suitable sites and for developers to get on with delivering on the outstanding planning permissions for almost 3000 homes within the borough that have yet to be commenced.”

CNL20/21 MOTIONS (Agenda item 8.)

20.1 The Mayor advised that no motions had been received.

CNL21/21 MINUTES OF THE EXECUTIVE (Agenda item 9.)

21.1 It was moved by the Leader, duly seconded and RESOLVED that the Minutes of the Executive meeting held on 22 June 2021 be received and noted.

21.2 There were three Part I matters, for Council consideration, from the meeting on 22 June 2021.

CNL22/21 EXE 6/21 LGBCE BOUNDARY REVIEW - WARDING PATTERN SUBMISSION
(Agenda item 9.1)

22.1 The Leader of the Council introduced the report which set out the proposals of the Cross Party Working Group to inform the work of the Boundary Commission in their review of the warding patterns in the borough, based on the knowledge of local councillors. With the Mayor's consent, he invited the Deputy Mayor, Councillor Ward to speak to the item as the Chairman of the Working Group.

22.2 Councillor Ward advised that following a number of meetings, a broad consensus had been reached. He stressed that the Boundary Commission's timetable had not been altered by the Government in light of the pandemic. A number of cases had been presented by officers and the working group sought as far as possible to avoid single member wards and retain two member wards in the four main towns in the borough and three member wards in the larger rural wards. It was noted that the Boundary Commission was not obliged to follow the Council's advice however it was hoped that it would inform their work. Their final recommendations would be published in October for a further period of consultation before being submitted to Parliament for final approval.

22.3 Councillor Seaborne felt that some of the groupings did not make geographical sense and that there were some numerical differences in the projected figures, however acknowledged the work that had gone into the report and the challenges presented although did not feel able to support the recommendations.

22.4 Councillor Gray disagreed with a number of the geographical groupings and would not be supporting the recommendations. Councillor Nicholson praised the piece of work and welcomed the recommendations. Councillor Goodridge was concerned that three Members representing seven villages and five Parish Councils would be difficult to sustain and there would be a

significant amount of travelling for eastern village Members and would not be able to support the recommendations.

- 22.5 Councillor Cockburn expressed concern over the proposals for wards in Farnham and felt that the proposals did not follow the natural boundaries.
- 22.6 The Leader of the Council thanked Councillors for their comments and echoed the comments made about the time which had been spent on this piece of work. He stressed that remote working would enable Members to cover a larger geographical area going forward and noted that the Boundary Commission were not obliged to take the Council's recommendations into account when making their final report. The Leader requested a recorded vote in accordance with Procedure Rule 17.4 and the Council

RESOLVED that a submission on future warding patterns be made to the Local Government Boundary Commission for England comprising Option 2 on Annexe 1 and illustrated in Annexe 2; plus the qualitative comments on warding issues as set out in Annexe 3 of the report.

CNL23/21 EXE 7/21 - OPTIONS FOR COLLABORATION WITH GUILDFORD BOROUGH COUNCIL (Agenda item 9.2)

- 23.1 At 6.54pm, the members of the Senior Management Team left the room and were not present for the duration of this item.
- 23.2 The Leader of the Council introduced and moved the recommendation and amendment, which was duly seconded by Councillor Clark, to submit a further report to Council setting out draft heads of terms of the joint inter authority agreement, the draft job description for a joint chief executive and the establishment of a joint appointments committee.
- 23.3 Councillor Mulliner raised a point of order relating to missing information from South East Employers. It was noted that supplementary papers had been circulated to Members by email the previous Friday and published to the Modern.gov app. In addition to this, hard copies were circulated by officers in the meeting to those Members who were missing the document. The Mayor adjourned the meeting at 7.10pm to enable Members to read the supplementary document.

- 23.4 The Mayor resumed the meeting at 7.23pm. Councillor Mulliner proposed deferring the item to a future meeting on the grounds that the cost sharing advice from South East Employers was missing, which was duly seconded by Councillor Cosser, and this was debated. Some Members expressed concern that there had not been sufficient time to consider the material. Those opposed to the motion to defer felt that Members had received the relevant information with sufficient time to consider and that the amendment proposed by the Leader would address those concerns. In addition, it was felt that there was a financial imperative to achieving the savings set out in the report and avoiding any further delay. At the conclusion of the debate, the Mayor called for a vote on the deferral which was lost: votes in favour 15; votes against 22; abstentions 2.
- 23.5 In response to questions from Members, the Leader clarified the purpose of the recommendation and amendment which was to authorise officers to begin the process to bring further information back to a further meeting of the Council and read it out so that Members could write it down in the absence of facilities to print the recommendations for Members to read. Councillor Mulliner proposed an amended wording to include arrangements for sharing costs, liabilities and savings and the Leader agreed that this wording be included in his amendment. The Mayor called for a vote on the amendment which was carried: votes in favour 22; votes against 8; abstentions 8.
- 23.6 There followed a lengthy debate on the substantive issue and Councillors Beaman, Clark, Cockburn, Cosser, Dickson, Deanus, Jenny Else, Foryszewski, Goodridge, Gray, Hyman, MacLeod, Merryweather, Mulliner, Palmer and Williams made comments. Some Councillors expressed concern that the proposals were premature and should be looked at as part of the budget process for next year. There would be significant upfront costs which would cancel out any immediate savings, and the projected savings were not significant enough to justify the upheaval of a major change in the way the Council operates. There was also concern expressed that the vision for collaboration was not achievable and that there would be an impact on the staff. Some Councillors spoke in support of pursuing option b set out in the report, that some form of collaboration should be supported and other ways to achieve savings should be looked at, but that it was felt that further information and clarity was needed. There was a suggestion that it be considered by the Audit Committee in view of the risks involved.
- 23.7 Some Councillors felt that the financial pressures on the Council due to Government cutbacks required it to identify savings and therefore it was not appropriate to delay the proposals any further. It was felt that officers had been neutral and professional, setting out the risks for Members to consider but noting that not all risks were likely to happen and all risks could be mitigated by the Inter Authority Agreement, which would come back to Council for approval. The proposals would increase the resilience of both Councils to face the financial pressures by increased collaborative working. Some felt that the proposals provided an opportunity to be ahead of the curve and offer advice to neighbours going through a similar process in the future.
- 23.8 The Leader summed up the debate by responding to some of the concerns expressed. The collaboration would be evidence and business case led, but

also politically led due to both organisations being political entities. The recommendations gave an opportunity to take action to make savings and reminded Members that there would be further opportunities to scrutinise each stage of the collaboration. There was a brief discussion on whether the recommendations could be taken separately and officers advised that due to the interdependency of the recommendations, that they should be voted on together.

23.9 The Leader requested a recorded vote, in accordance with Procedure Rule 17.4, supported by five Members and it was

RESOLVED that

- 1. Full Council pursues the option of creating a single management team, comprised of statutory officers (Head of Paid Service; Chief Finance Officer; Monitoring Officer), directors and heads of service as the most appropriate means for bringing forward business cases for future collaboration;**
- 2. Full Council asks the Council's HR Manager to take the necessary action, in consultation with Guildford Borough Council and with the support and advice from South East Employers and as set out within the addendum to annexe 3 of this report, to make arrangements for a recruitment and selection of a single joint Chief Executive (acting as Head of Paid Service for both Waverley and Guildford Borough Councils), including making arrangements for a senior officer recruitment panel (to include the Leader of the Principal Opposition Group and the Council Leader), so that a report may be brought to a future meeting of Full Council recommending the appointment of a suitable candidate; and**
- 3. A report be submitted to a session of full council on the following matters a) heads of terms for the proposed Inter Authority Agreement to establish governance arrangements for joint working and identify how costs, liabilities and savings will be shared b) the proposed Job Description and Terms and Conditions in respect of the appointment of a joint Chief Executive and c) the establishment of a joint appointments committee including its composition.**
