I object to the longer opening times. The pub is located in an all residential area. It is situated in the bottom of valley and at night the noise echos and travels around the surrounding area. As a close neighbour to the pub we frequently hear people leaving the pub on foot and by car and do not wish to be disturbed any later. Also we are very concerned how little this new application has been publicised to neighbours. This will affect lots of residents, the only notice is at the pub, how can people have their say if they are unaware?!
