1. Role of Internal Audit

The requirement for an internal audit function in local government is detailed within the Accounts and Audit (England) Regulations 2015, which states that a relevant body must:

‘Undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.’

The standards for ‘proper practices’ are laid down in the Public Sector Internal Audit Standards [the Standards – updated 2017].

The role of internal audit is best summarised through its definition within the Standards, as an:

‘Independent, objective assurance and consulting activity designed to add value and improve an organisations’ operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes’.

The Council is responsible for establishing and maintaining appropriate risk management processes, control systems, accounting records and governance arrangements. Internal audit plays a vital role in advising the Council that these arrangements are in place and operating effectively.

The Council’s response to internal audit activity should lead to the strengthening of the control environment and, therefore, contribute to the achievement of the organisations’ objectives.

2. Purpose of report

In accordance with proper internal audit practices (Public Sector Internal Audit Standards), and the Internal Audit Charter the Chief Audit Executive is required to provide a written status report to ‘Senior Management’ and ‘the Board’, summarising:

- The status of ‘live’ internal audit reports;
- an update on progress against the annual audit plan;
- a summary of internal audit performance, planning and resourcing issues; and
- a summary of significant issues that impact on the Internal Audit Manager’s annual opinion.

Internal audit reviews culminate in an opinion on the assurance that can be placed on the effectiveness of the framework of risk management, control and governance designed to support the achievement of management objectives of the service area under review. The contractor has adopted the new CIPFA recommended standard terminology and definitions to be used in internal audit engagements across the whole Public sector and for a standard set of opinions and supporting definitions for internal audit service provider to use. This has resulted in minor amendments to those previously used by Southern internal Audit Partnership and adopted by the internal inhouse provision in accordance with best practice.

The recommended CIPFA classifications:-

Substantial A sound system of governance, risk management and control exists, with internal controls operating effectively and being consistently applied to support the achievement of objectives in the area audited.

Reasonable There is a generally sound system of governance, risk management and control in place. Some issues, non-compliance or scope for improvement were identified which may put at risk the achievement of objectives in the area audited

Limited Significant gaps, weaknesses or non-compliance were identified. Improvement is required to the system of governance, risk management and control to effectively manage risks to the achievement of objectives in the area audited

No Immediate action is required to address fundamental gaps, weaknesses or non-compliance identified. The system

of governance, risk management and control is inadequate to effectively manage risks to the achievement of objectives in the area audited.

3. Performance dashboard

Compliance with Public Sector Internal Audit Standards

An External Quality Assessment of the Southern Internal Audit Partnership was undertaken by the Institute of Internal Auditors (IIA) in September 2020. The report concluded:

'The mandatory elements of the IPPF include the Definition of Internal Auditing, Code of Ethics, Core Principles and International Standards. There are 64 fundamental principles to achieve with 118 points of recommended practice. We assess against the principles. It is our view that the Southern Internal Audit Partnership conforms to all 64 of these principles. We have also reviewed SIAP conformance with the Public Sector Internal Audit Standards (PSIAS) and Local Government Application Note (LGAN). We are pleased to report that SIAP conform with all relevant, associated elements.'

5. Planning & Resourcing

The internal audit plan for 2020-21 was approved by the Audit Committee in March 2020.

The audit plan remains fluid to provide a responsive service that reacts to the changing needs of the Council. Section 7 details the reviews that have been added/removed/deferred to the original plan approved by the Audit Committee March 2020. Progress against the plan is detailed below in Section 6. This plan will be delivered within the budget allocated as detailed in Section 8 of this report.
