1. Background

The existing ICT Strategy was agreed in 2016 and now is an appropriate moment to revise and update our approach.

ICT is increasingly fundamental to the way we deliver services as has been evidenced during 2020 as we sought to amend our model in the light of Covid. It is also a vital component as we now respond to the post Covid fiscal challenges.

The draft Strategy is appended to this report along with a glossary of terms and additional detail on the cyber challenge we must prepare for.

Recommendation

Members are asked to consider and comment on the draft strategy.

Background Papers

There are no background papers (as defined by Section 100D(5) of the Local Government Act 1972) relating to this report.
