Ref	Para/ Policy	Proposed Modification
MM1	<b>LPP2 Introduction: Footnote 1</b>	<p><b>LPP2 Introduction</b></p> <p><u>Amend Footnote 1 of the LPP1 Introduction to:</u></p> <p>At the Issues and Options stage, Local Plan Part 2 was called 'Non-Strategic Policies and Sites' but the document has been renamed to 'Site Allocations and Development Management Policies' to include the potential for sites for over 100 homes (<del>strategic sites</del>) to be allocated within it.</p>
MM2	<b>DM1 a)</b>	<p><b>Policy DM1: Environmental Implications of Development</b></p> <p><u>Amend Policy DM1 a) to:</u></p> <p>Development should:</p> <p>a) Avoid <b>significant</b> harm to the health or amenity of occupants of nearby land and buildings, and future occupants of the development, including by way of an unacceptable increase in pollution, light, noise, dust, vibration, and odour, or an increase in flood risk. <b><u>If significant environmental impacts from development cannot be avoided, adequately mitigated, or, as a last resort compensated for, then planning permission should normally be refused;</u></b></p>
MM3	<b>DM1 f)</b>	<p><b>Policy DM1: Environmental Implications of Development</b></p> <p><u>Amend Policy DM1 f) to:</u></p> <p>Development should:...</p> <p>f) Avoid exacerbating the <b>climate change and</b> damage to the environment caused by the emission of greenhouse gases by seeking to minimise these;</p>

MM4	DM1 g)	<p><b>Policy DM1: Environmental Implications of Development</b></p> <p>Development should:</p> <p><b>g) <u>Follow the mitigation hierarchy set out in DM1 a) to:</u></b></p> <ul style="list-style-type: none"> <li><b>i. <u>avoid negative impacts upon biodiversity and maximise opportunities to deliver the minimum biodiversity net gain of 10% as required by the Environment Act 2021 - in relation to ecological the biodiversity net gain should be compared to the baseline and calculated using the most up to date national Biodiversity Metric;</u></b></li> <li><b>ii. <u>protect and enhance geological assets. through the design, structure and landscaping of the development.</u></b></li> </ul> <p><b><u>h) Avoid negative impacts of light pollution from artificial sources on local amenity, intrinsically dark landscapes and nature conservation.</u></b></p>
MM5	DM1 h)	<p><b>Policy DM1: Environmental Implications of Development</b></p> <p><u>Deletion of h) from Policy DM1:</u></p> <p>Development should:</p> <p><del>h) Where adverse environmental impacts are unavoidable, and the benefits of the development demonstrably outweigh the harm, ensure impacts are appropriately mitigated."</del></p>
MM6	DM2 b) and c)	<p><b>Policy DM2: Energy Efficiency:</b></p> <p><u>Amend Policy DM2 b) and c) to:</u></p> <p>To improve energy efficiency and reduce carbon emissions in the Borough:...</p>

Ref	Para/ Policy	Proposed Modification
		<p>b) <del>New dwellings and conversions which create new dwellings must achieve a reduction in carbon emissions of 20 per cent measured against the relevant Target Emission Rate (TER) set out in the Building Regulations 2010 (as amended) (Part L).</del></p> <p>b) <b><u>Development proposals for new dwellings and/or conversions which create new dwellings must provide an energy statement demonstrating how emissions savings have been maximised at each stage of the energy hierarchy towards achieving minimal carbon emissions.</u></b></p> <p>c) Subject to compliance with other relevant policies, the Council will support proposals which seek to achieve a greater reduction in carbon emissions <b><u>against the Target Emission Rate (TER) in the 2021 Part L of the Building Regulations</u></b> or zero carbon development. <b><u>This should be evidenced by submission of a draft Dwelling Emission Rate (DER).</u></b></p> <p><u>Amend supporting text explanatory notes:</u></p> <p>Explanatory notes:</p> <p><del>2.13 The energy performance of new dwellings is assessed using the Standard Assessment Procedure (SAP) which assesses how much energy a dwelling will consume and how much carbon dioxide will be emitted based on standardised occupancy conditions. The SAP calculation is used to determine the Dwelling Emission Rate (DER) which can then be compared to the Target Emission Rate (TER) as set out in the Building Regulations.</del></p> <p><del>2.14 Using the SAP to generate a DER which can be compared to the Building Regulations TER is already required as part of the building control process.</del></p> <p><del>2.15 The final DER calculation cannot be undertaken until the dwelling has been constructed, therefore compliance with part a) of the policy will be required through a condition attached to the planning permission.</del></p> <p><del>2.16 It is recommended that a draft DER is calculated based on the plans and specifications for the new dwelling(s) prior to a planning application being submitted to ensure that the approved design and materials can achieve the 20% reduction in carbon emissions against the TER set out in the Building Regulations.</del></p> <p><b><u>There are four stages of the energy hierarchy:</u></b></p>

These villages will also be accommodating some growth requiring removal of additional land from the Green Belt on the edge of the villages, either through this Plan or through the relevant Neighbourhood Plan. Local Plan Part 2 identifies the Green Belt boundary changes in the parish of Witley, which includes Milford. In Chiddingfold and Elstead, settlement and Green Belt boundary changes to accommodate planned growth will be <b><u>or have been</u></b> made through the relevant Neighbourhood Plans...</p> <p>....</p>

Ref	Para/ Policy	Proposed Modification
		<p>3.10 Given that Green Belt boundary changes in Chiddingfold and Elstead have been being <b>or will be</b> made through the respective Neighbourhood Plans, this Plan only identifies the Green Belt boundary changes required to accommodate planned growth in the parish of Witley. In relation to this, the changes to the Green Belt and settlement boundaries for Milford and Witley, set out in this section, are those required specifically to accommodate the housing allocations for the parish of Witley, set out in Chapter 7: Housing Sites and to address minor anomalies..</p> <p>.....</p> <p><b><u>The settlement boundaries for Farnham, Haslemere and Chiddingfold are contained within the relevant neighbourhood plans and are included on the Borough’s policies map.</u></b></p>

		<p><b><u>Explanatory notes:</u></b></p> <p><b><u>Local Plan Part 1 establishes that exceptional circumstances exist to justify amendment of Green Belt boundaries in some areas in order to facilitate sustainable patterns of development, and indicates that, where necessary, detailed adjustments to them are to be made in this Plan. Accordingly, this Plan makes the detailed amendments set out in Table 4. These are required firstly, as a result of settlement boundary changes; secondly, to ensure that Green Belt boundaries are clearly defined using physical features that are readily recognisable and likely to be permanent; and thirdly, so that Green Belt boundaries do not include land which does not need to be kept permanently open. Other Green Belt boundary alterations made by this Plan are set out in the relevant site allocation policies (DS12, DS13 and DS14).</u></b></p>
MM24	<b>Paragraph 3.13</b>	<p><u>Amend Paragraph 3.13 to:</u></p> <p>3.13 The NPPF does not define ‘disproportionate,’ ‘materially larger,’ or ‘limited infilling’ in relation to development within the Green Belt. Each application will, however, have to be considered on its own merits, taking into account factors such as how isolated a site is, and the scale and mass of the original building. Developments which exceed these guidelines may be acceptable in some circumstances, <b><u>including where floorspace is created within the volume of the existing building, such as the conversions of lofts or cellars.</u></b> Where a building is outside of but visually well related, to the settlement boundary, the Council will decide on a case-by-case basis whether it is appropriate to apply the percentage guidelines.</p>

### Appendix IV: Schedule of Superseded Policies

Once Local Plan Part 2 (LPP2) is adopted, all retained policies in the Local Plan 2002 (LP 2002) will be superseded and will no longer be part of the development plan for Waverley. The development plan will then consist of policies from Local Plan Part 1 (LPP1), LPP2 and 'made' (adopted) neighbourhood plans. The table below sets out where LPP2 policies directly supersede the LP 2002 policies. Where the policies are superseded by a combination of LPP2 and LPP1 policies, the LPP1 policy is also listed. Even if a LP 2002 policy is not directly superseded by a LPP2 and/or LPP1 policy, once LPP2 is adopted, the policy will be superseded and cease to be part of the development plan.
