

Questions from Cllr David Munro, relating to item 8 (Safer Waverley Partnership):

### **Domestic Homicide Reviews**

“I understand that that Waverley has had a disproportionately high number of DHRs in recent years compared with other Surrey boroughs. Currently, each DHR is funded separately by the appropriate Borough Council, meaning that Waverley has had to bear significant costs.

There was a move afoot to establish a Sinking Fund for DHRs, where each borough contributes a fixed cost every year to a dedicated Surrey DHR Fund, which then finances DHRs across the county when they occur. This not only means that the funding burden is evened out across the whole of Surrey but that individual DHRs are not constrained so much by cost pressures when undertaking their work.

Where are we on this initiative?”

### **Anti-Social Behaviour by 4x4s and Bikes In Rural Areas**

“My ward of Western Commons is lucky enough to contain large tracts of beautiful, unspoiled countryside. At times though, notably at the Hindhead and Thursley Punchbowl and on Frensham Common, this tranquillity is spoiled by some irresponsibly-driven 4x4s and bikes which not only pose a danger to walkers, riders and cyclists but disturb threatened wildlife.

While recognising that this is a controversial issue and one which is difficult to police effectively, some local residents have told me that they think that the SWP should be more vigorous in tackling this nuisance. I agree.

What are the SWP’s plans for responding more effectively to this problem?”
