Equality Impact Assessment

The purpose of an assessment is to understand the impact of the Council's activities* on people from protected groups and to assess whether unlawful discrimination may occur. It also helps to identify key equality issues and highlight opportunities to promote equality across the Council and the community. The assessment should be carried out during the initial stages of the planning process so that any findings can be incorporated into the final proposals and, where appropriate, have a bearing on the outcome.

(*Activity can mean strategy, practice, function, policy, procedure, decision, project or service)

	positive impact in giving members of the community an opportunity to have a say in the services delivered by local community groups.

2. Is the proposed activity accessible for all the protected groups listed below?
(Consider in what ways the activity might create difficulties or barriers to parts of the workforce, community or protected groups. How might one or more groups be excluded because of the activity?)

4. What action can be taken to address any negative impact? What measures could be included to promote a positive impact? (*Consider whether it is possible to amend or change the activity due to the likely adverse impact whilst still delivering the objective. Is it possible to consider a different activity which still achieves the aims but avoids an adverse impact? Is an action plan required to reduce any actual or potential adverse impact?*)

The Council will ensure any negative impact is mitigated through the criteria set out in any management agreement associated with a transfer.

Asset Transfer should have a positive impact by involving the community and offering community groups the opportunity to deliver objectives themselves.

No action plan is required.

5. What are the main sources of evidence that have been used to identify the likely impacts on the different protected groups? (*Use relevant quantitative and qualitative information that is available from sources such as previous EIA's, engagement with staff and service users, equality monitoring, complaints, comments, customer equality profiles, feedback, issues raised at previous consultations and known inequalities*).

As this is a new activity it has been difficult to assess any impact. It is suggested that any impact is assessed over the course of the first three years of the policy and the policy and EIA be updated at the first review to reflect any impacts noted during the review period.

6. Has any consultation been carried out (e.g. with employees, service users or the wider community)? Please provide details

N/A

7. Is further consultation required as a result of any negative impact identified? If so, what groups do you intend to engage with and how?

N/A

8. Conclusion of Equality Impact Assessment - please summarise your findings

It is possible that there may be an very minor impact but this will not be known until the policy is in operation. The nature and intention of each transfer will differ and therefore consideration will be given to any negative or positive impacts when considering expressions of interest and agreeing any ongoing management arrangements.
