Dear Paul

I trust you have received the photos of my new vehicle I have purchased this particular vehicle to service the needs of 2 clients I have, TAG Aviation in Farnborough and ElitAvia Aviation

Both require unmarked Mercedes, with built in wifi for their passengers and crew

ElitAvia is a Russian owned private airline operating 18 private jets out of Slovenia into many airports around the world, but for my purposes Farnborough, Luton and Stansted

Please let me know if you require any further information

Regards
Andrew
